Death of a Retired Merchant.

On Saturday night last, at 9:30 o'clock, Mr. Wm. H. Waggener died at his rooms in the Capital Hotel, of acute heart trouble, aged 65 years.

Mr. Waggener was the son of the late Dr. A. C. Waggener. He was born at Russellville, Ky., on the 6th of August, 1828. When a child he removed with his parents to Danville, where he spent his youth and young manhood. In June, 1854, he graduated from Centre College, and in January, 1855, entered into a partnership with his brother, Mr. J. L. Waggener, in the dry goods business.

Owing to the frequent raids made upon the city of Danville, during the war, the Waggener brothers removed to this city in December, 1863, and opened up in the store room now occupied by Dr. S. B. Holmes as a drug store, at the corner of Main and St. Clair streets.

They were very successful and popular as merchants, and continued in the business until November, 1888, removing, in the meantime, to the store now occupied by Johnson & Hoge, which they had erected especially for the purpose.

Owing to delicate health upon the part of the members of the firm, they closed out their business as above stated, and retired to enjoy the competence which they had earned.

Mr. Waggener was married in early life to Miss Mary Cooke, of Harrodsburg, by whom he had three sons, Victor, Lucien and Bertie. Bertie died when a small child, but Victor died from the result of an accident, when just budding into young manhood. Mrs. Waggener's health gave way and she soon followed her noble boy.

Of late years Mr. Waggener and his brother have spent the summer months at Atlantic City, N. J., and the winter at the Capital Hotel in this city.

For a long time Mr. Waggener has suffered from some heart trouble, but did not take to his bed until a few days before the end.

His son Mr. J. Lucien Waggener, jr., who is a professor in a college in Iowa, reached here, in response to a telegram, a few hours before his father's death.

Mr. Waggener received every attention which his devoted brother (and we never knew two brothers more devoted to each other), the best of physicians and other friends could render, but nothing could stay the march of the destroyer.

He was a member of the First Presbyterian Church of this city. The funeral services were conducted from that Church on Monday afternoon, at 3 o'clock, by his pastor, Rev. J. McClusky Blaney, D. D., and the remains were laid away in our cemetery by the side of his wife and sons.

He leaves, besides his son (Prof. Waggener), two brothers, Mr. J. L. Waggener, of this city, Mr. D. Bell Waggener, of Philadelphia, and one sister, Mrs. W. B. Patton, of Chicago, Ill.

The sympathy of a large circle of friends and acquaintances is extended to those so sorely bereaved.

Thousands of persons have been cured of piles by using DeWitt's Witch Hazel Salve. It heals promptly and cures eczema and all skin diseases. It gives immediate relief. Tyler & Hemphill.

Of General Interest.

We give below, at the request of the local postoffice department, the schedule of collections and deliveries as made by the letter carriers in this city, beginning Monday, November 14:

8 a. m.—General collection and delivery.

11 a. m.—General collection and delivery.

1 p. m.—Collection and delivery in the business section only.

3:30 p. m.—General collection and delivery.

5 p. m.—General collection without delivery.

By observing this data generally our citizens will learn just when and how to make their arrangements about depositing their letters and papers in the boxes.

E. C. Blanks, of Lewisville, Texas, writes that one box of DeWitt's Witch Hazel Salve was worth \$50,000 to him. It cured his piles of ten years standing. He advises others to try it. It also cures eczema, skin diseases and obstinate sores. Tyler & Hemphill.

Beautiful Life Ended.

One of the saddest deaths that it has been our privilege to chronicle in recent years was that of Miss Bettie Macklin, daughter of the late and lamented John Macklin, which occurred at the home of her brother-in-law, Mr. Burbridge Blackburn, near Woodlake, on Tuesday morning last.

Miss Bettie was the youngest child of a large family, and of a sweet, modest, and lovely disposition.

Her health had been poor for some time and every effort was put forth by loving hearts to shield and ward off the impending blow.

She spent the better part of the year in Florida with the hope that its milder climate might stay the inroads of disease, but in vain, and she returned to her old neighborhood, kindred and friends, to lay down life's burden.

She was a handsome young woman and her character was as lovely as her person.

For years she had been a member of Providence Baptist Church, this county, and, when the hour of dissolution came, her faith was firm and unshaken, and she quietly fell asleep in the Savior's loving arms.

She leaves an aged mother and two sisters (Mrs. Emma Blackburn and Mrs. Anna Stevenson) together with a large circle of relatives and friends to mourn the blighting of a pure and happy young life.

The funeral took place on Wednesday morning from Providence Church, the services being conducted by her pastor, Rev. E. F. Wright, assisted by Dr. Z. T. Cody and Rev. T. Warn Beagle, and was attended by every body in the neighborhood. The remains were placed among her kindred dead in our cemetery.

We tender our sincerest sympathy to the sorrowing hearts thus made desolate.

The Best Plaster.

A piece of flannel dampened with Chamberlain's Pain Balm and bound on to the affected parts is superior to any plaster. When troubled with a pain in the chest or side, or a lame back give it a trial. You are certain to be more than pleased with the prompt relief which it affords. Pain Balm is also a certain cure for rheumatism. For sale by J. W. Gayle.

The Chief Burgess, of Milesburg, Pa., says DeWitt's Little Early Risers are the best pills he ever used in his family during forty years of house keeping. They cure constipation, sick headache and stomach and liver troubles. Small in size but great in results. Tyler & Hemphill.

Badly Hurt.

Mr. Buell Taylor, of this city, who is a brakeman on the C. & O. railroad, was badly hurt, on Friday night, when on the way from Lexington to Louisville on his train. The accident happened between Lexington and Midway. No one saw the accident and of course it is not known how it happened.

When the train reached Midway he was missed and search was made. He was found lying on the top of a car clutching the running rail and unconscious. His head was badly cut laying the forehead open to the skull.

He was brought here and taken to his brother's, at the fire engine house, Dr. E. E. Hume, the railroad surgeon summoned, and surgical attention given. He is doing very well. He does not know how the accident happened or how he succeeded in holding to the car rail.

Fine Place Sold.

That well-improved and desirable property formerly belonging to Mr. L. B. Marshall, and known as Thorn Hill, containing 70 acres, was purchased, on Friday last, from the Farmers Bank by Mrs. Alex C. Henry, for \$7,000 equal to cash.

Mrs. Henry and her family moved to their new home this week.

Mr. Marshall has rented the Stoddard Johnson place, on Shelby street, and moved in. That property belongs to the Farmers Bank.

Appointed.

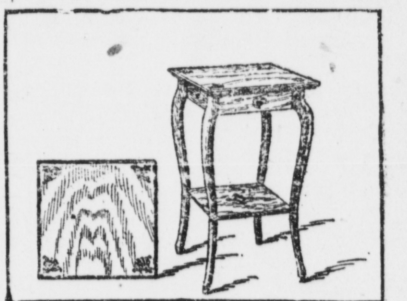

Mr. Wm. Berkele, of Garrard county, has been appointed by Gov. Bradley as Ordnance Sergeant in charge of the State Arsenal, to succeed Mr. Carl Dixon, deceased. Mr. Berkele formerly held a position at the prison, but went into the army as Quartermaster of the Second Kentucky.

Chronic Dyspepsia Cured.

AFTER suffering for nearly thirty years from dyspepsia, Mrs. H. E. Dugdale, wife of a prominent business man of Warsaw, N. Y., writes: "For 28 years, I was a constant sufferer from dyspepsia and a weak stomach. The lightest food produced distress, causing severe pain and the formation of gas. No matter how careful of my diet I suffered agonizing pain after eating. I was treated by many physicians and tried numerous remedies without permanent help. Two years ago I began taking Dr. Miles' Nerve and Liver Pills and Nervine. Within a week I commenced improving, and persisting in the treatment I was soon able to eat what I liked, with no evil effects. I keep them at hand and a single dose dispels any old symptoms."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

A Heap of Coal

That is burned in this town is but half coal and half dirt and slate. If your coal doesn't burn to a good clean ash—if it clinkers and clogs your grate, there is something wrong about it. There is no need of burning that kind of coal. I am ready to sell you "coal that's all coal." If you want slate buy it separate—it's cheaper. Let me have your next order.

Fine Time.

The Spaniards are having a fine time with their soldiers still left in Cuba. Many of them have not been paid for more than a year. Worse than that, under the law the soldiers were allowed to save up so much each month and leave it on deposit with the authorities. Now it turns out that this money has been stolen. Large numbers of the soldiers (7,000 at one place) have mutinied, demanding their pay.

Insecure Scaffolds Cause Several Men to Be Hurt.

Yesterday morning Bedford Gatewood and another colored man were at work plastering the inside of the same house when the scaffold gave way and precipitated them to the floor. Gatewood had an arm broken and the other man got his face severely cut in several places.

Editor Roundabout:

The calling of a Democratic primary election for the 28th of December to nominate a candidate for the Legislature brings the question of "next Representative" distinctly to the front, and suggests careful and discriminating thought. Public sentiment seems unanimous that Capital Appropriation shall be the watchword of this campaign, and it behooves all persons and parties to put aside individual ambitions, piques and prejudices, to the end that the best man may be selected. Minor things are dwarfed in this light. Three gentlemen's names have been mentioned as aspirants, and still others as possible candidates. This is a worthy ambition that gives the people a number to choose from and a fair opportunity to get the best. This wise precaution taken, it seems entirely practicable to secure the long desired boon to Frankfort and the county and State, and settle once and for all time, the vexed question.

To arrive at a sensible estimate of individual merit among the claimants, some cool consideration of relative talents and experience must be indulged, and in this, no unkind intention is entertained toward either of the gentlemen concerned. In selecting a leader there are many points of excellence that should have place in review; and finding these, the public interest receives its due and all men should be satisfied. Natural endowment for political leadership is a quality not possessed by every politician, and it is also one without which no Representative can be depended on in the management

of a contested bill in a legislative body. Experience must also strengthen diligence, lest advantage lose its opportunity and failure shame the actor.

Looking over the field as made up, in the light of the foregoing suggestions, it would appear that the Hon. South Trimble presents the qualifications that are desired. By inheritance from his grandsire, genial "Old Jere South," than whom no more magnetism nor shrewder political manager existed in his day, he wears the mantle of success, as proved by his rapid advancement to the foremost place in the councils of his party and the indorsement placed on his aspiration two years ago. An organizer by instinct, and a leader by force of character, he proved his birthright on the floor of the last "House" in perfecting legislation against combined opposition that would have dismayed a less determined man. A native of the county; inspired by every attribute of patriotism and pride; and fitted by association to mould and lead legislative thought, he comes to you, in his young manhood, asking indorsement for service already rendered and privilege to go forth again in the interest of his people.

If fidelity to party demands entitle one to recognition, the plaudit, "Well done faithful servant" should resound in his ears and he receive the nomination without a dissenting voice. His work stands as a monument to faithful duty, rebuking puerile criticism, and shaming ingratitude, the meanest and most contemptible of all human frailties.

In some quarters complaint is heard that partisan legislation was fostered by him to the detriment of local interests. However this may be, he is abundantly able and willing to accept the test of fair investigation and stand or fall on the verdict of a just decision. But, accepting the charge as true, for purposes of this writing, does it not occur to the fair-minded reader that ability to secure such results proclaims him already a veteran and foreshadow the logical conclusion that such energies, directed to the great problem in the coming assembly, would almost surely win the prize? It is idle twaddle to talk of willful unfaithfulness to his home and people—unworthy the man that utters it—if he has taken the trouble to inform himself.

Short sessions, tedious methods and obstructing tactics by opposing elements, account for many a failure after zeal and vigilance had exhausted resources. He will be heard along these lines before the final day.

Much severe comment is also indulged about removal of the Geological specimens to Lexington, Mr. Trimble being held responsible. Of course this is all sentiment that can not be made available against a most meritorious measure that was sustained by a vote of 72 to 4, Mr. Trimble voting in the negative. The room they occupied was needed for library purposes, besides the State

College, where the youth of the country was being educated, was the proper place for them to the end that they might be made useful for reference, &c. Still, in deference to aforesaid local sentiment, Trimble voiced the wishes of his people, and voted to keep them here—72 to 4 speaks his acquittal, for it was a forlorn hope.

Finally, people, be wise, be just, be true! Place your confidence and give your countenance to this young citizen, and feel assured that he will redeem all pledges and accomplish all ends entrusted to his keeping.

Delicate Children

They do not complain of anything in particular. They eat enough, but keep thin and pale. They appear fairly well, but have no strength. You cannot say they are really sick, and so you call them delicate.

What can be done for them? Our answer is the same that the best physicians have been giving for a quarter of a century. Give them

Scott's Emulsion

of Cod-Liver Oil with Hypophosphites. It has most remarkable nourishing power. It gives color to the blood. It brings strength to the muscles. It adds power to the nerves. It means robust health and vigor. Even delicate infants rapidly gain in flesh if given a small amount three or four times each day.

FRANKFORT, NOVEMBER 19, 1898.

Farmers' Institutes—Series 1393.

To be convened under the auspices of the Kentucky Bureau of Agriculture, at the courthouse in Barbourville, county of Knox, on Tuesday, Nov. 29th, 1898.

Three sessions will be held during the day. Morning session opens at 10 o'clock; afternoon at 1:30, and evening at 7:30. Stereopticon illustrations on the lectures will be given at the evening session.

LECTURERS.

An able corps of lecturers will be on hand, who will discuss subjects of interest to the farmers from a practical standpoint. Among others will be the following:

Prof. M. A. Scovell, Director of the Agricultural Experiment Station, who will talk on the work of the Station and what it is doing for the farmer.

Prof. H. Garman, Entomologist of the Station, who will talk on Insect and Fungus Diseases of Crops.

Prof. Miller, Professor of Geology Kentucky A. & M. College, who will talk on Geology and its relation to Agriculture.

Prof. C. W. Mathews, Professor of Horticulture Kentucky A. & M. College, whose subject will be the Garden and Orchard.

Mr. E. W. Robinson, of Missouri, an extensive breeder and feeder of swine, who will talk on the Care, the Feeding and the Breeding of Swine.

Mr. W. W. Stevens, of the Indiana State Board of Agriculture, who will talk on the fertilization for wheat with clover and leguminous plants, and on other matters pertaining to successful wheat growing.

Mr. M. F. Johnson, President of the State Horticultural Society, will lecture on "The Pleasures, Profit and Possibilities of Fruit Growing in Kentucky."

An attache of the Office of Road Inquiry, National Department of Agriculture, is expected to be present and will talk on the subject of Highway Improvement, or "Good Roads."

Unavoidable causes may prevent the presence of some of the above named gentlemen, but their places will be supplied wherever possible.

These meetings are educational and are devised for the purpose of bringing the farmers of the communities together for an interchange of ideas for the improvement of methods in agriculture.

No farmer can afford to neglect these meetings. The lecturers are practical men, thoroughly versed in the subjects they discuss, and you will undoubtedly get from them and your neighbor farmers in attendance some suggestions that will be of value in the future.

Come out and take part in the discussions that will follow each lecture. Bring the family. Don't forget the boys. Talk institute to every farmer you meet and get him to promise to come. Remember the date. Hear every lecture. Special invitation to ladies.

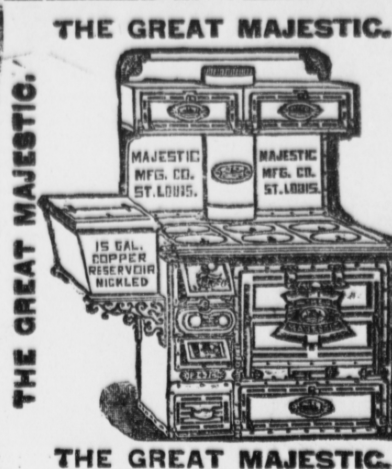

LUCAS MOORE,
Commissioner of Agriculture.

War in Earnest.

The farmers and tobacco growers of this and adjoining counties are in earnest in their determination to fight the big plug tobacco trust. They are organizing with a view to calling a big convention to be held in this city on the first Monday in next month (December 5th).

A call was issued for the Convention by a meeting held in this city on Monday afternoon, after consultation among the leading growers in this and other counties.

County Conventions will be held to select delegates. Thousands of circulars will be sent to the growers of this and other States. The leaders claim that they have the active support of all the growers, warehousemen and independent manufacturers of this and adjoining States, and they propose to institute proceedings in the Federal Court to dissolve the trust.

For doing prompt and thorough cooking and quick water heating it has no rival. It is made to last a life-time. Does quicker work with one-half the fuel than any other stove or range. Don't take chances on any of the numerous imitations made by the cast-iron stove trade. The Great Majestic is now sold in every State in the Union.

Special Inducements to Parties Purchasing This Week

11-2w.

It is to be hoped that these efforts to defeat the trust will not cease after spasmodic action and the adoption of a few high sounding resolutions.

Above all things keep the movement out of the hands of the politicians, for, so certainly as they get their fingers in the pie, so surely will the movement be doomed in advance. It is well known that these oily gentlemen are only in for anything that will promote their own schemes regardless of the interests of the people.

Good Word For Our Fred.

Capt. F. A. Cook, of the cruiser Brooklyn, in his report to the Navy Department in regard to the work done by the officers and men on his ship, has this to say of our young friend, Passed Assistant Engineer Thos. Fred Carter, formerly of this city:

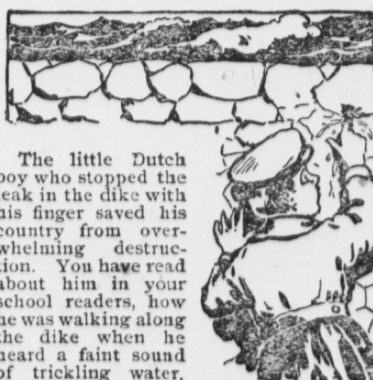

"The splendid and efficient work done in the engine and fire rooms was largely due to the zeal and intelligence of Past Assistant Engineer Carter, who went immediately to his station in the engine-rooms and was unremitting throughout the action in his effort to get the best speed."

The beauty of it all is that our friend deserved every word and more too.

Card of Thanks.

To the many kind friends and neighbors of Frankfort, who so kindly extended to us their sympathy and so generously gave us their assistance and comfort during the fatal illness of our beloved boy, Carl, we return our most sincere and grateful thanks for all they have done in this our hour of sad bereavement.

Mr. and Mrs. J. K. DIXON.

The little Dutch boy who stopped the leak in the dike with his finger saved his country from overwhelming destruction. You have read about him in your school readers, how he was walking along the dike when he heard a faint sound of trickling water, and knew at once that a leak had sprung in that great embankment which saves Holland from the devastations of the hungry sea. It was early in the night, and no one was near at hand. The leak was small when he found it, but he knew that the action of the water would enlarge it long before morning, and wash away the entire embankment, inundate the country and destroy his own and thousands of homes. So he bravely put his finger in the crevasse, and kept it there all the long night through, until help came and the opening was properly stopped. He had saved his country.

Equally insignificant is the entrance of disease into the human system. The beginnings of the most terrible ailments are so small they can be easily stopped at the start. Your health is a dike which keeps out and stops the inroads of dangerous and devastating disease. Whenever it breaks down, no matter how slightly, there is an opening for disease to enter. If the opening is not watched, it will grow larger, until the sweep of disease overwhelms you, and health and perhaps life is destroyed forever.

Fortify your health with Dr. Pierce's Golden Medical Discovery, and you can defy ill-health. You can make your health so strong a bulwark that disease cannot find a crevice through which it can creep. Taken in time, Dr. Pierce's remedies prevent greater and more serious troubles. Hundreds write daily to Dr. Pierce, telling him how these remedies have saved them and made them strong.

Constitution causes and aggravates many serious diseases. It is speedily cured by Dr. Pierce's Pleasant Pellets.

REEFTON, New Zealand, Nov. 23, '98. I am very pleased to state that since I took the agency of Chamberlain's medicines the sale has been very large, more especially of the Cough Remedy. In two years I have sold more of this particular remedy than of all other makes for the previous five years. As to its efficacy, I have been informed by scores of persons of the good results they have received from it, and know its value from the use of it in my own household. It is so pleasant to take that we have to place it beyond the reach of the children.

Sword Presented.

As announced in last week's issue, Col. John R. Allen, as the spokesman of the business men of Lexington, presented Capt. Noel Gaines, of this city, with a beautiful sword on Saturday night.

The presentation took place at the Opera House between the acts of Creston Clark.

Capt. Gaines responded to Col. Allen's address in a short and graceful speech.

Narrow Escape.

Postal Clerk R. J. Whaley, who runs on the Frankfort & Cincinnati Railway to Paris, has been off on a week's vacation. On Sunday morning he went to Midway and attempted to board the C. & O. train (which does not stop there). He slipped and fell under the train and would have been instantly killed but for the presence of mind of the colored man who carries the mail from the Midway post-office, and who was standing near. The man jerked Whaley from under the train, but one of his legs was skinned and bruised by the wheels, they being so close.

Mr. Whaley came on here in a buggy and went out on his run the next morning, but was quite sore and uncomfortable from his close call.

Editor of the Roundabout:

The articles in the ROUNDABOUT of last week, written by S. E. Hampton and Observer, are on an important matter and they both touch on a remedy, but it will be a long time before their organization (if formed) will be as powerful as the Continental and American Tobacco Companies.

Until it is that powerful, it cannot beat such concern without the aid of allies. When that powerful (if it ever is), it cannot beat such a combination if it fights alone. Therefore the proper thing for this proposed new organization of producers to do is to get an organization and ally itself with all the forces fighting the trust.

The first of these allies is organized labor, the next is the independent tobacco manufacturing companies. Then follows the various reform associations, &c. The members of, and sympathizers with, the Tobacco Growers Association should buy no manufactured tobacco except that which carries the blue label of the Tobacco Workers' National Union and is made in an independent factory (which it is).

The members should buy no cigars except those from boxes bearing the label of the Cigar Makers' International Union.

If they will observe these two precautions they will be buying their own product and will be doing something that will get them the support of the American Federation of Labor, which has nearly a million members.

This organization struck the first blow at the Continental Tobacco Co. by refusing to longer carry the advertisement of the Drummond Tobacco Co. after it sold out to the trust. The unions of the United States have so boycotted Battle Ax that in some sections of the country it can hardly be given away.

Let the policy of the growers be to aid all those who aid them and begin by calling for union label tobacco, all of which is manufactured in independent factories.

Then, when the organization has gained sufficient strength to make itself felt, let it take the matter up and refuse to buy anything at all from a man who will handle trust tobacco.

Do this, build up your organization, help all independent factories, stick to everybody that will help you fight the trust and you will win.

Go it alone and you will lose.

Your greatest ally will be organized labor, the only organized body that has unremittingly fought trusts since the war and the only organized body that has fought the American Tobacco Co. with any effect.

Third Kentucky Volunteers Go South.

The trains carrying the Third Kentucky Volunteers passed through this city Saturday morning shortly after midnight. Owing to the hour but few of our people saw the boys.

They went down to Bowling Green where they were allowed a stop of three or four hours, and were given a grand reception and banquet.

A large number of the officers and men were from that section of the State, the Colonel (Col. Thos. J. Smith) is a citizen of the city of Bowling Green.

There are also a number of Frankfort boys in the regiment. Dr. Nevill M. Garret, Assistant Surgeon, was with his regiment when it passed through. Capt. Gaines remained as Provost Marshal until the camp was finally closed.

Old Maids' Convention.

The "Old Maids' Convention," which was held at the Opera House on Friday night last, was the biggest success of the season.

It was thoroughly enjoyable from start to finish, and was measurably free from the drag almost invariably attending amateur performances.

The grinding up of the old maids and turning them out of the machine as pretty girls was a hit that carried the house into a generous enthusiasm.

Frankfort is hard to beat in the way of pretty girls, and the galaxy of young beauties on the stage when the curtain fell was one that can not be excelled any where.

We are glad to report that the Y. M. C. A., for whose benefit the entertainment was given, was the recipient of a handsome sum from the proceeds of the convention.

LOUISVILLE TOBACCO MARKET.

FURNISHED BY GLOVER & DURRETT
LOUISVILLE TOBACCO WAREHOUSE.

Sales on our market for the week just closed amount to 808 hhds., with receipts for the same period of 205 hhds. Sales on our market since January 1st amount to 91,620 hhds. Sales of the crop of 1896 on our market to this date amount to 74,592 hhds.

The total offerings of new burley to date amount to 203 hhds. The new burley offered this week met with more competition than it has done for the past two or three weeks. The bidding was spirited and prices some better all along the line. Nearly all of the offerings are from the counties south of Louisville and the quality is still disappointing to the trade. The best offered this week sold from \$8.60 to \$10.25. We think these prices, quality considered, from 1/2 to 1 cent better than last week. We had a good rain on Wednesday, and look for more liberal receipts in the near future, and hope to have some good crops from the old burley counties, and feel sure we will be able to report much better prices the latter part of this month. The feeling was better in old burley. The common and medium red fillers, when in good condition, met with more competition and better prices than ruled last week. We also think the bidding was more spirited on the low grades in bad condition. No change from last week's prices in the colory sorts.

The following quotations fairly represent our market for burley tobacco 1896 crop:

Trash (dark) or damaged tobacco	\$4.00 @ \$5.50
Common Colory trash	5.50 @ 7.00
Medium to good colory trash	7.00 @ 10.00
Common lugs not colory	7.00 @ 9.00
Common Colory lugs	8.00 @ 10.50
Medium to good colory lugs	10.00 @ 13.00
Common to medium leaf	10.00 @ 14.00
Medium to good leaf	14.00 @ 16.00
Good to fine leaf	16.00 @ 18.00
Select or wrapery	18.00 @ 26.00

Commence to Divide.

The Judge Advocate General of the Navy has commenced to divide up the prize money won by the navy during the war with Spain. Curiously enough Capt. Sigbee, who was the first commander to lose property by the destruction of the Maine, is the first to receive prize money. He gets \$975 as his share for the capture of a vessel which was trying to deliver coal to Cervera. The total for the vessel was \$13,000, of which \$6,500 goes to the government and the balance to the officers and men of the St. Paul, who captured her.

Rip in Bad Shape.

Mr. Joe Jefferson, better known as "Rip Van Winkle," is in bad shape and has cancelled his engagements for the season and gone to Florida for recuperation. He caught cold some two weeks since, and the cold has resisted all attempts to dislodge it. Many of his admirers will learn this with regret.

In 1887 Mr. Thomas McIntosh, of Allentown, Tenn., had an attack of dysentery which became chronic. "I was treated by the best physicians in East Tennessee without a cure," he says. "Finally I tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. After using about twelve bottles I was cured sound and well. For sale by J. W. Gayle.

Y. M. C. A. NOTES.

The closing meeting of the "Week of Prayer" series will be held at 7:30 o'clock this (Saturday) evening in the Association parlors. Prof. D. E. Fogle, of Georgetown College, who will address the meeting, is a young man and a most excellent speaker. Young men, don't miss hearing him.

Captain Jas. J. Nelson, who has recently taken charge of the Salvation Army work in this city, will speak at the Men's Rally in the Association rooms on Sunday afternoon at 3:30 o'clock. He is an energetic speaker and will doubtless have an interesting message for the young men. Good music. All men welcome.

The sincere thanks of the Association officials are extended to the members of the Ladies' Committee and all others who participated in the "Old Maids' Convention" or assisted in any way in making the entertainment so successful. The net proceeds were \$160, which sum the committee generously turned over to the Directors, who have applied it toward the indebtedness carried over from the second fiscal year.

Fond of Fine Whisky.

A colored man named J. A. Stephens was arrested in Lexington on Tuesday morning, as he was alighting from the L. & N. train, having in his possession a valise in which were twenty bottles of fine whisky.

Information had been received that some one had broken into a car at Jetts station, this county, and stolen a lot of whisky, and also that Stevens was on the train with his valise full.

After being arrested Stephens confessed and told where some fifteen or twenty more bottles were hidden in a field near Jetts, which was visited and the goods recovered.

A charge of grand larceny was placed against Stevens and he will be brought here for trial.

Unfortunate Trip.

It seems that the Third Kentucky Regiment's trip to Columbus, Ga., was a very unfortunate one. As the result of several accidents three men were killed and two dangerously, if not fatally, injured.

It appears that the men hurt were mostly injured either in jumping on or off of the trains when in motion.

Maria Teresa Did Not Sink.

It now develops that the Maria Teresa did not sink in the gale, after she was abandoned. She drifted until she went ashore on Cat Island. She was found to be in pretty good situation by the wrecking crews sent to look after her.

It is now thought that there will be but little trouble in floating her and bringing her to the shipyard for which she was bound and there repairing her.

Bird Law Out.

On Tuesday last the law prohibiting the killing of quail arrived at its open period. From that day until January 1st it is lawful to kill these birds with guns, but it is unlawful to net or trap them.

The sportsmen of our city and county will have a good time for this six weeks at least. Alas for poor Bob White!

Acquittal.

Mr. Sargent Perkins, who killed his son-in-law, J. Will Newton, on Thursday of last week, for ruining his daughter, was brought before Judge J. Dan Moore for an examining trial on Saturday, when County Attorney Polsgrove moved to dismiss the case, holding that Perkins was justifiable under the unwritten law.

Judge Moore sustained the motion and Perkins was discharged.

Stands Pat.

The Spanish Commissioners at the session of the Commission on Wednesday, announced their refusal to evacuate the Philippines, and asking for arbitration of the question under the protocol.

The United States Commissioners are under positive orders to stand squarely for our original demand.

The Commission will meet again to-day.

Distillery Resumes.

The O. F. C. Distillery of the Geo. T. Stagg Co. made its first mash on Thursday last, and will run the season out.

The Carlisle Distillery, belonging to the same company, has been largely remodeled, and will commence running pretty soon. It will make spirits exclusively, this season, upon a big contract.

It is thought all the distilleries hereabout will soon be under way.

Postponed.

Owing to the fact that Rev. Dr. D. J. Stafford, the eloquent priest, was called to the bedside of his dying mother in Washington City, he was unable to be present and deliver the promised lecture on "Hamlet," on Wednesday night.

This was a source of great regret to a large number of our best citizens, as they expected a rare treat in the lecture by this polished orator.

They sympathize with him in his sorrow.

It is hoped that he may come at some future date.

Dancing Class to Resume.

We are requested to announce that Prof. Wayland Graham's dancing class will meet again on Monday night, Nov. 21, at 7:30, at his Music Hall.

Rev. W. H. Hampton and wife will celebrate their silver wedding at their home in Ironton, Ohio, on Monday, November 28th. Their many friends here at their old home extend congratulations and wish them many happy returns of the day.

A Horrible But Deserved Fate.

Lucien, the assassin of the Austrian empress, has been sentenced to solitary confinement for the rest of his life. He will not be allowed to speak or to be spoken to, to have anything to read, to write any letters, or to receive any visits during the week. Sunday he may attend service in the prison chapel and may read books that day only. He will be put to work as a shoemaker.

Lost All Around.

Rev. J. C. McIntyre, the chaplain of the Iowa, who lost his head and let his tongue wag too much about things of which he did not know, thus gaining a dismissal from the Navy, met with another loss, of which he did not dream. He was engaged to a handsome and wealthy New York lady, who, upon learning of his disgrace, cancelled the engagement and has gone to Paris to make an extended visit.

If you want to know how someone else went over the bank and was ducked in the creek, just ask Johnnie Harrod to show you how. Johnnie is a jolly good fellow. It was a pity he stepped on a stone and had to take a cold water bath, especially so near winter.

Mr. Joe D. is seen in our community very often of late. We have wondered what inducement there was to call him here. Guess he is taking lessons from the new school marm. That's right, Joe, study hard, you will solve the problem after awhile.

Died—In this county, on Saturday morning, Nov. 12th, after a long illness of typhoid fever, Babe Harlow, a son of Mr. E. J. Harlow. He was just passing from youth to manhood, a steady, quiet, nice young man. After the funeral services the remains were laid to rest in the cemetery at Bagdad to await the resurrection morn. Date Finally Fixed.

The Spanish Commissioners finally accepted the date, at Wednesday's session, at which Spain is to surrender all jurisdiction over the island of Cuba as of date January 1, 1899.

It is well known that there will be about 20,000 Spanish soldiers still on the island at that time, but provision is made for that, and they are required to remain in barracks until such time as they can be transported back to Spain.

Deputy Grand Master Workman.

Mr. S. C. Vaughan, Deputy Grand Master Workman of the Ancient Order of United Workmen, has been in the city for several days, and is assisting the members of Elkhorn Lodge, No. 64, of this city, in taking care of the large number of new members who are now entering this benevolent order. He is stopping at Hotel Fleming, and would be glad to see the members of the order and any of those who propose to become members.

This organization is growing very rapidly in membership and in financial standing. The membership now enrolled number some 360,000. They have paid to widows and orphans \$89,000,000. In Kentucky alone the order has paid \$1,600,000. It is the largest beneficiary organization in the country. It guarantees not more than 12 assessments per year.

\$500 REWARD

BICYCLES AT

\$17.50 \$22.50 \$30.00 \$35.00

Are better bicycles than can be bought in America for the same money.

We employ no traveling men. Issue no expensive circulars, sell our entire output to the riders for cash only. have no bad debts, therefore, can sell **BICYCLES 100 per cent.** cheaper than any manufacturer in the United States. We never deceive the public. No one can succeed in so doing. Our bicycles are sent subject to approval without any advance whatever. We expect to sell 15,000 bicycles in 1898 and we only want to make \$1.00 each. We much prefer to sell 15,000 at a profit of \$1.00 each than 1,000 at \$15 each. Any prices above ours made by other concerns are made so by extravagant expenses, and don't let anyone convince you that you should pay for extravagances and bad debts of others.
